

Brabourne and Smeeth Parish News - June 2009

South East Open Studios 2009

This year South East Open Studios is celebrating its largest-ever year, with over 270 artists taking part throughout Kent and East Sussex. This annual event, which takes place between 5th and 21st June, gives visitors the opportunity to meet artists in their studios and talk to them about their work.

Brabourne and Smeeth are lucky enough to have six artists in five studios taking part this year - Alexandra Le Rossignol, Michael Tremblay, Christine Dumont, Sue Chapman, Vi Sprawling and Liz Garnett.

There is a walking art trail map of Brabourne and Smeeth which takes in all the studios and is available either online or from one of the studios. The map and full details of each location is on the village notice-board outside Orpins. Guides, which also double up as directory of artists, are available in local libraries, tourist information offices and also online at www.seos-art.org. The website also has a wealth of information about participating artists as well as a search facility for different art practices.
